Versatile SAP Financial Accounting Consultant with a strong background in financial analysis and data-driven decision-making. Transitioned from a Senior Financial Analyst role at Cairo Oil Refining Co. to my current position as an FI master data specialist and SAP FI consultant at EGPC. Adept at providing training and support for finance teams, ensuring smooth adoption of SAP functionalities, and maintaining compliance with financial regulations. Passionate about leveraging SQL, Python, and data visualization tools such as Tableau to drive financial forecasting and cost optimization. Seeking to contribute expertise in SAP FI/CO, financial management, and data analytics to enhance business performance.
